COMP 600: Graduate Research Seminar

Spring 2016: Mondays, 12:00–12:50pm, Duncan Hall (TBA). Lunch provided. Instructor: John Greiner

1 credit hour, graded Satisfactory/Unsatisfactory — **You must attend and fill out a short feedback survey on OWL-Space for each speaker.** No more than 2 unexcused absences allowed. (Contact the instructor to get absences excused.)

What is this seminar?

A seminar primarily for Computer Science graduate students to practice presenting their research and to be exposed to the breadth of the department's research. We also welcome faculty, post-docs, and research staff to present. Occasionally, we also invite outside speakers to speak on research or professional topics.

CS PhD students — All in residence at Rice are expected to enroll each semester and to present every four semesters.

MCS & MS CS students — Master's students are welcome to enroll, but I must give PhD students enrollment priority due to limited space.
